Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121.

I. Claims 1-8 and 16-20, drawn to a network and method for operating a network for the interconnection of computers having a client and a server, classified in class 709, subclasses 217.

- II. Claims 9-15, drawn to an interpreter for a network, classified in class 717, subclass 3.
- 2. The inventions are distinct, each from one another because of the following reasons: Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct form each other if they are shown to be separately usable. See MPEP § 806.05(d).
- 3. A telephone call was made to applicant's representative to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).
